

Welcome to Inlet's Crafters Market!

Please note that we are **social distancing in Arrowhead Park**, and that **face coverings are required** when you are not able to social distance with people outside of your group, which includes when you are **in and around any of the vendor booths**.

Hand sanitizing stations have been installed around the park and the restroom building is open to help you **keep your hands clean**.

Staff and volunteers will be on site enforcing social distancing and making sure there are not too many visitors within the market area at any given time.
